

RASHIL MANANDHAR

Kathmandu, Nepal — +977 9861048480
sayamirashil@gmail.com — LinkedIn — GitHub — Portfolio

Professional Summary

Aspiring DevOps Engineer with hands-on experience in Linux system administration, networking, Docker, Kubernetes, Jenkins, Git, and self-hosted infrastructure. Skilled in deploying containerized applications, managing Linux servers, configuring networking services, implementing CI/CD concepts, and troubleshooting production environments. Passionate about cloud technologies, automation, Infrastructure as Code, and building reliable, scalable systems.

Technical Skills

Operating Systems: Ubuntu Server, AlmaLinux, Windows

Linux Administration: User Management, Permissions, Services, Process Management, Systemd, SSH, Bash Scripting

Networking: TCP/IP, DNS, DHCP, Routing, SSH, VPN, Firewall Basics, Network Troubleshooting

DevOps: Git, GitHub, Docker, Docker Compose, Harbor, Jenkins, Kubernetes, Vagrant

Cloud: AWS Fundamentals (EC2, IAM, S3)

Databases: MySQL, MongoDB

Programming: Python, JavaScript, Bash

Web Development: HTML, CSS, React.js, Node.js

Message Broker: RabbitMQ (Basics)

Security: Linux Security Basics, Cryptography Fundamentals

Web Servers: Nginx, Apache

Tools: VS Code, VirtualBox, GitHub Actions (Basics), Microsoft Office

Projects

Self-Hosted DevOps Homelab

- Built a home server using Ubuntu Server and Docker.
- Deployed self-hosted services including Nextcloud, Immich, Vaultwarden, Grafana, Prometheus, Loki, Homepage, and Tailscale.
- Configured persistent storage, reverse proxy, monitoring, and secure remote access.

Kubernetes Application Deployment

- Containerized applications using Docker.
- Deployed workloads on Kubernetes with Deployments and Services.
- Managed Pods, scaling, networking, and rolling updates.

CI/CD Pipeline Practice

- Built basic CI/CD pipelines using Jenkins.
- Automated source code build and deployment workflows.
- Integrated Git repositories with Jenkins jobs.

Restaurant Management System

- Developed a full-stack web application using React, Node.js, Express, and MongoDB.
- Implemented authentication, CRUD operations, and responsive UI.
- Managed backend APIs and database integration.

Training

DevOps Training Program

Broadway Infosys

Linux Administration, Networking, Git, GitHub, Docker, Jenkins, Kubernetes, Harbor, Vagrant, Database Fundamentals, AWS Fundamentals, CI/CD Concepts, Bash Scripting, Cryptography Basics.

Education

Bachelor of Information Management (BIM)

Graduated: 2026

Shanker Dev Campus, Kathmandu

Relevant Coursework: Operating Systems, Networking, Database Management Systems, Software Engineering, Programming, Artificial Intelligence

Soft Skills

Problem Solving • Communication • Team Collaboration • Analytical Thinking • Adaptability • Continuous Learning

Languages

Nepali (Native) • English (Professional Working Proficiency)
